

Sensor Description

5km/10km/25+km Range External LoRaWAN and 4G Antennas.
Designed to increase range of sensor.
Comes with mounting bracket to attach to 130mm case, and antenna patch leads to attach ANT to MB.

Optional upgrade for all LoRaWAN or 4G/Nb-IoT products.

Features

- Increase the range of your LoRaWAN sensors.
- Hanging slots and built-in magnets cater for various mounting options
- Easy installation

Applications

- LoRaWAN upgrade for sensors.
- 4G/Nb-IoT upgrade for sensors.
